Also more shows with the All Star Jam Band

2022

« Taj Mahal Mafia » , release May 23, 2022

Mahadev Cometo, Al Comet, Bio (engl.), 2022

## LONG VERSION

Alain Monod was born in Fribourg / Switzerland, March 26, 1959.

He starts studying classical music at the conservatory of Fribourg as a piano player at the age of 7.

Mainly influenced by Jimi Hendrix around 10/11 years old, he stops his piano lessons at the age of 14 and starts joining rock bands as guitar player.

At the age of 19 Al joins the Swiss Air Force Pilot School and starts a short period of his life as an aircraft pilot. But this was short-lived as he was kicked out for failing to follow bed- making procedures.

Back to music... Al decides to start a new band called TB with some friends. They play a lot of successful local shows. Their first studio experience (recording a 7") marks a big change for Alain - he realizes how far away he is from the expected...

TB don't survive.... Al (Al Nox at the time) self-produces his first solo 12". He is learning how to make a sound in a studio...

In the mid 80's, he stops playing traditional instruments and concentrates his research on this new machine called "sampler".

In 1988 Al joins The Young Gods as their driver. A few weeks later... during the same tour he gets behind the mixing desk as their FOH engineer.

In 1989 he becomes keyboard player of The Young Gods.

Also in 1989 Franz (TYG singer) produces the first Al Comet CD at Relief Studio with sound engineer Bertrand Siffert. The song **LAD** becomes a hit in the Pipeline (Newark's underground club).

Al and Bertrand decide to go on a 10 days Europe Pirate Tour. They digitally record all the shows (4 per night!). Bertrand is playing keyboard and Al is singing through a megaphone.

The second Al Comet CD is a "live" one. The « **EUROP PIRAT TOUR** » is also produced by Franz at Relief and is released in 1991.

Distributed by COD, they organize great promo days... Al is taking reporters for a flight!

In 1992 Al Comet's song « **Plus d'accordeon** » is selected as part of the Opening Ceremony of the Olympic Winter Games in Albertville, [mahadev-cometo.com/albertville-1992](http://mahadev-cometo.com/albertville-1992).

In 1994 Comet is moving to NYC with The Young Gods. They stay there for almost a year writing "Only Heaven". Following the release of the album they go on an extensive world tour. After almost two years of the « **Only Heaven** » tour... Al takes a break and starts to experiment with ambient music. He gets married and becomes the father of two children.

1997, The third Al Comet CD « **COMET** » is an ambient one... he records and mixes it by himself in his living room!

Al meets Team Lazer and buys a sitar-guitar off him. After playing improvisations every day at home or for friends for some time, Al decides to record this instrument... improvising melodies.

In 2000, this project called « **SITARDAY** » is released on the net only.

At the end of 2002 Comet plays some more Sitar shows. He is joined by Jean-Louis Gafner who adds visuals to the performances. Jean-Louis is playing with oil projections, adding a beautifully psychedelic dimension.

Al and Bertrand produce the new Al Comet project. They are back to their "power pirate duo" contest!!! This album is called « **WHITE PLANET** », released in February 2004.

2011 Al Comet won a residency of 6 months in Varanasi, India. He's studying sitar and Indian classical music.

On the way back from India, the collaboration with « The Young Gods » is turning into an end. Cometo is now experimenting the association of the ancestral sound of a sitar and the very hi-tech electronica. He is playing a lot of concerts around Europe, Nepal, India. In solo or by joining famous musicians like Mich Gerber, Andy Pupato, Wolfgang Zwiauer for the ALL STAR JAM BAND and also the Vaid brothers, Koho Newton and Simon Bertz or Chris Jäger of the SUPERTERZ.

In 2017, after 5 years of intensive work Mahadev Cometo presents his first Sitar-Album: « **FREEDOM** ». The Nord-Indian Raag is transformed in a new dimension. It is a fusion of sitar and electronics which has never been heard in this vehemence and sound.

2022 « **TAJ MAHAL MAFIA** » is released in May

It is a hi-performance album, a top of the art of the combination in between Indian and Western music.

Mahadev is now doing shows around the world - playing pure acoustic sitar or electronica.

# Discography

Al Comet – Mahadev Cometo

**1983 - TB, first 45 rpm**

**1987 - Al Nox, 45 rpm of 4 songs** (self production)
